GENERAL INDEX, VOLUME 118 (1968)

Aalund, O. See Osebold
Aldová, A., K. Lázničková, E. Štěpánková and J. Lietava. Isolation of nonagglutinable vibrios from an enteritis outbreak in Czechoslovakia, 25
Aleutian disease of mink, properties of the agent and host responses, 511
Andrada, J. A. See Bigazzi
Anthrax infection, neurological and physiological responses in primates, 97
Anthrax toxin
  neurological and physiological response of primates, 85
  primary site of action, 104
  pathophysiological changes in the rat, 114
Aspergillosis, pathology of experimental disseminated infections, 370

Baker, R. D. See Ford
Barron, A. L. See Bigazzi
Bartell, P. F., T. E. Orr and M. Garcia. The lethal events in experimental *Pseudomonas aeruginosa* infection in mice, 165
Bartell, P. F., T. E. Orr, A. Geffen and P. Iorio. Experimental infection of mice with *Staphylococcus aureus*: Evidence against alpha toxin and the terminal size of the bacterial population as determinants of lethality, 481
Berk, R. S. See Makarem
Berman, D. T. See Hinsdill
Bhattacharya, P. and S. Mukerjee. Production of antibodies after live enteral cholera vaccination, 271
Bigazzi, P. L., A. L. Barron, T. D. Flanagan, J. A. Andrada and E. Witebsky. Growth of mumps virus in organ cultures of rhesis testis, 411
Boyle, C. C. See Eklund
Brem, A. M. and W. C. Eveland. L forms of *Listeria monocytogenes*. I. In vitro induction and propagation of L forms in all serotypes, 181
Brian, B. L. and E. W. Gardner. Fatty acids from *Vibrio cholerae* lipids, 47
Brucella abortus, toxicity of antigens for cultural macrophages, 307
Buckler, J. M. See Miller
Bullock, G. L. See Wolf
Burrows, W. See Felsenfeld; also see Iwert; also see Leitch
Butler, J. J. See Szakacs

Cantrell, W. See Elko
Carsey, J. C. and R. M. Pike. Comparison of infectious mononucleosis hemagglutinins with those of rabbits injected with boiled beef erythrocytes, 463
Chalmers, T. C. See Grady
Cholera
  antibodies after live enteral vaccination, 271
  experimental infection in rabbit ligated intestine, 349
Cholera toxin
  immune response in nonhuman primates, 491
  role of ammonia in sodium transport inhibition, 263
Coccidioides immitis, infection in mice, 54
Crandall, R. B. and L. L. A. Moore, Jr. The macroglobulin antibody response in experimental trichinosis, 377
Cryptococcus neoformans
  immunofluorescence, 215
  survival in gastrointestinal tract of pigeons, 135

Darden, J. H. See Rice, 289
Deb, B. C. See Iwert
Degre, D. See El-Zein
Degre, M. and L. A. Glasgow. Synergistic effect in viral-bacterial infection. I. Combined infection of the respiratory tract in mice with parainfluenza virus and *Hemophilus influenza*, 449
Dobbs, J. P. See Klein; also see Fish
Donahue, J. A. See Kleck
Duff, J. T. See Swack
Duhamel, R. C. See Grady
Dunbar, C. E. See Wolf

Eklund, E. M., W. J. Hadlow, R. C. Kennedy, C. C. Boyle and T. A. Jackson. Aleutian disease of mink: Properties of the etiologic agent and the host response, 511
Elko, E. E. and W. Cantrell. Phagocytosis and anemia in rats infected with *Haemobartonella muris*, 324
El-Zein, A., W. L. Myers and D. Degre. Behavior of equine infectious anemia virus in cell culture and development of a diagnostic test for the disease, 473
Emmons, R. W., D. H. Gribble and E. H. Lennette. Natural fatal infection of an owl monkey (*Aotus trivirgatus*) with herpes T virus, 153
Encephalomyocarditis virus, infection in the mouse, 125
Enterobacteriaceae, absence from mouse gut after antibiotic treatment, 32
Equine infectious anemia virus, cell culture and diagnostic test, 473
Eveland, W. C. See Brem

Felsenfeld, O., W. Burrows, G. J. Kasai, W. E. Greer and Z. Jiřičéka. The cellular immune response of nonhuman primates to crude type 2 cholera toxin, 491
Fish, D. C., F. Klein, J. A. Vick, J. S. Walker, B. G. Mahlandt and R. E. Lincoln. Pathophysiological changes in the rat associated with anthrax toxin, 114; also see Vick
Flanagan, R. D. See Bigazzi
Ford, S., R. D. Baker and L. Friedman. Cellular reactions and pathology in experimental disseminated aspergillosis, 370
Friedman, L. See Ford
Friedman, R. and R. M. Maenza. Peroral infection and resistance to reinfection with encephalomyocarditis virus in the mouse, 125
Furness, F. Analyis of the growth cycle of *Mycoplasma orale* by synchronized division and by ultraviolet irradiation, 436
Furness, G., F. J. Pipes and M. J. McMurtrey
  Susceptibility of human mycoplasmata to ultraviolet and X irradiations, 1
  Analysis of the life cycle of *Mycoplasma pneumoniae* by synchronized division and by ultraviolet and X irradiations, 7

Gaines, S., H. Sprinz, J. G. Tully and W. D. Tigertt. Studies on infection and immunity in experimental typhoid fever. VII. The distribution of *Salmonella typhi* in chimpanzee tissue following oral challenge and the relationship between the numbers of bacilli and morphologic lesions, 293
Gaines, S., J. G. Tully and W. D. Tigertt. Studies on infection and immunity in experimental typhoid fever. VIII. Intravenous and intra-lymph node challenge of chimpanzees with *Salmonella typhi*, 393
Gale, D., E. A. Lockhart and E. Kimbell. Studies of *Coccidioides immitis*. IV. The effect of previous injection with human red cell stromata of the ABO groups on infection of mice with *C. immitis*, 54
Garcia, M. See Bartell
Gardner, E. W. See Brian
Geffen, A. See Bartell
Glasgow, L. A. See Degre, M.
Goren, M. B. and J. Warren. Immunofluorescence studies of reactions at the cryptococcal capsule, 215
Grady, G. F., M. A. Madoff, R. C. Duhamel, E. W. Moore and T. C. Chalmers. Sodium transport inhibition by cholera toxin: The role of non-ionic diffusion of ammonia, 263
Greer, W. E. See Felsenfeld
Gribble, D. H. See Emmons

Hadlow, W. J. See Eklund
Haemobartonella muris
  phagocytosis and anemia in infected rats, 324
  relation of parasitemia to life span of eythrocytes, 443
Hall, L. See Kreier
Haller, G. J. and R. J. Lynn. Immune response of rabbits to streptococci grown in intraperitoneal diffusion chambers, 160
Heitmann, R. See Krasner
Herpes T virus, infection of owl monkeys, 153
Hinsdill, R. D. and D. T. Berman. Antigens of *Brucella abortus*. II. Toxicity for macrophages in culture, 307
Human pneumonitis agent vaccine, protection of mice, 468
Hutchinson, H. D. See Palmer
Hyde, R. M. See Rice

Immunoglobulins in rabbits immunized with Forssman antigen, 278
Infectious mononucleosis hemagglutinins, 463
Interferon, production in stressed mice, 230
Iorio, P. See Bartell
Iwert, M. E., B. C. Deb, D. L. Shrivastava and W. Burrows. Cholera toxins: Increased levels of serum glutamic-oxalacetic transaminase in human cholera, 422

Jackson, R. A. See Eklund
Jeljaszewicz, J. See Kwarecki
Jensen, M. M. Transitory impairment of interferon production in stressed mice, 230
Jiřičéka, Z. See Felsenfeld

Kasai, G. J. See Felsenfeld
Kennedy, R. C. See Eklund
Kimbell, E. See Gale
Kissling, R. E. See Palmer
Klasky, S. and M. J. Pickett. Immunogenicity and specificity of *Listeria monocytogenes* cell walls, 65
Kleck, J. L. and J. A Donahue. Production of thermostable hemolysin by cultures of *Staphylococcus epidermidis*, 317
Klein, F., R. E. Lincoln, J. P. Dobbs, B. G. Mahlandt, N. S. Remmele and J. S. Walker. Neurological and physio-

logical responses of the primate to anthrax infection, 97; also see Vick; also see Remmele; also see Fish
Krasner, R. I. and R. Heitmann. The presence of a virulence factor in group A streptococcal extracts. II. The enhancement of virulence of heterologous streptococci and other organisms by these extracts, 39
Kreier, J. P. and L. Hall. The relationship of parasitemia to the life span of erythrocytes of rats infected with *Haemobartonella muris*, 443
Kwarecki, K., S. Smigielski, J. Jeljaszewicz and C. Zak. Injury of rat peritoneal mast cells in vivo by staphylococcal alpha hemolysin and leukocidin, 360

Lázničková, K. See Aldová
Leitch, G. J. and W. Burrows. Experimental cholera in the rabbit ligated intestine: Ion and water accumulation in the duodenum, ileum and colon, 349
Lennette, E. H. See Emmons
Leptospira pomona, nutritional requirements, 197, 206
Leucogenenol, effect on blood cells, 289
Leukocytes, response to the injection of leucogenenol, 76
Levy, B. M. See Szakacs
Lietava, J. See Aldová
Lincoln, R. E. See Vick; also see Klein; also see Remmele; also see Fish
Listeria monocytogenes
  agglutinating antibodies, 139
  immunogenicity and specificity of cell walls, 65
  L forms, 181
Lockhart, E. A. See Gale
Lynn, R. J. See Haller

McMurtrey, M. J. See Furness, 1, 7
Madoff, M. A. See Grady
Maenza, R. M. See Friedman
Mahlandt, B. G. See Vick; also see Klein; also see Remmele
Makarem, E. H. and R. S. Berk. Partial purification and characterization of chondroitinase from *Proteus mirabilis*, 427
Marriott, M. E. See Storz
Matsuyama, S. See Sawada
Miller, M. E. and J. M. Buckler. Intracellular survival and growth of *Serratia marcescens* following phagocytosis by human leukocytes, 149
Moore, E. W. See Grady
Moore, L. L. A., Jr. See Crandall
Motol virus, poxvirus nature of, 500
Mukerjee, S. See Bhattacharya
Mumps virus, growth in rhesus monkey organ cultures, 411
Murine lymphoma, interaction of macrophages and lymphocytes, 240
Murphy, F. A. See Palmer
Mycoplasmata
  susceptibility to radiations, 1
  analysis of life cycle, 7
Mycoplasma orale, growth cycle, 436
Myers, W. L. See El-Zein

Nielsen, H. S., Jr. Biologic properties of skin test antigens of yeast form *Sporotrichum schenckii*, 173

Orr, T. E., See Bartell, 165, 481
Osebold, J. W. and O. Aalund. Interpretation of serum agglutinating antibodies to *Listeria monocytogenes* by immunoglobulin differentiation, 139

Palmer, E. L., D. W. Ziegler, R. E. Kissling, H. D. Hutchinson and F. A. Murphy. Poxvirus nature of the Motol virus, 500
Parainfluenza virus and *Hemophilus influenza*, synergistic effect in respiratory tract of mice, 449
Paragonimiasis, immunodiagnosis of, 235
Phibbs, P. V., Jr. and W. P. VanEseltine. Nutritional requirements of leptospirae. III. Minimal nitrogen requirements of a strain of *Leptospira pomona*, 197
Pickett, M. J. See Klasky
Pike, R. M. See Carsey
Pipes, F. J. See Furness, 1, 7
Plague endotoxin, physiopathology in mice, guinea pigs and monkeys, 188
Proteus mirabilis, chondroitinase from, 427
Pseudomonas aeruginosa, infection in mice, 165
Psittacosis-induced abortions in animals, blood infectious phase, 333

Quimby, M. C. See Wolf

Raff, M. J. and A. S. Werner. Staphylococcal infection in chick embryos: The effect of hydrocortisone on intra-allantoic infection, 14
Randhawa, H. S. See Sethi
Remmele, N. S., F. Klein, J. A. Vick, J. S. Walker, B. G. Mahlandt and R. E. Lincoln. Anthrax toxin: Primary site of action, 104; also see Klein
Rice, F. A. H. Leucocyte response to the injection of leucogenenol in rabbits and mice, 76
Rice, F. A. H. and J. D. Darden. The effect of the intravenous injection of leucogenenol on the blood cells of the bone marrow, 289
Rice, J. E. and R. M. Hyde. Immune responses to experimental vaccinia infection, 386
Ritterson, A. L. Effect of immunosuppressive drugs (6-mercaptopurine and methotrexate) on resistance of Chinese hamsters to the tissue phase of *Trichinella spiralis*, 365

Sato, S. See Sawada
Sawada, T., K. Takei, S. Sato and S. Matsuyama. Studies on the immunodiagnosis of paragonimiasis. III. Intradermal skin tests with fractionated antigens, 235
Serratia marcescens, intracellular survival, 149
Sethi, K. K. and Randhawa, H. S. Survival of *Cryptococcus neoformans* in the gastrointestinal tract of pigeons following ingestion of the organisms, 135
Shayegani, M. G. Action of lysates of leukocytic granules on staphylococcal cell walls, 402
Shrivastava, D. L. See Iwert
Sinkovics, J. G. See Szakacs
Smigielski, S. See Kwarecki
Sporotrichum schenckii, skin tests antigens, 173
Sprinz, H. See Gaines, 293
Staphylococcal alpha toxin, injury to mast cells, 360
Staphylococcal cell walls, action of lysates of leucocytic granules, 402
Staphylococci
  effect of hydrocortisone on intra-allantoic infection in chick embryos, 14
  endotoxin-induced resistance, 340
Staphylococcus aureus, determinants of lethality, 481
Staphylococcus epidermidis, thermostable hemolysin, 317
Štěpánková, E. See Aldová
Storz, J., M. E. Marriott and W. R. Thornley. The dynamics of the blood infection phase in psittacosis-induced abortions in animals, 333
Streptococci
  group A, virulence factor, 39
  immune response of rabbits to organisms grown in intraperitoneal diffusion chambers, 160
Sultzer, F. M. Endotoxin-induced resistance to a staphylococcal infection: Cellular and humoral responses compared in two mouse strains, 340
Swack, N. S. and J. T. Duff. Protection of mice with an inactivated human pneumonitis agent prepared in a human diploid cell strain, 468
Szakacs, A., J. G. Sinkovics, J. J. Butler, B. M. Levy and C. F. Tessmer. Electron microscopic observation on the interaction of macrophages and lymphocytes in a virus-induced murine lymphoma, 240

Takei, K. See Sawada
Taliaferro, L. G. See Taliaferro, W. H.
Taliaferro, W. H. and L. G. Taliaferro. The hemolytic immunoglobulins produced by unirradiated and irradiated rabbits immunized with Forssman antigen, 278
Tessmer, C. F. See Szakacs
Thornley, W. R. See Storz
Tigertt, W. D. See Gaines, 293, 393
Trichinella spiralis, effect of immunosuppressive drugs on resistance of Chinese hamsters, 365
Trichinosis, macroglobulin antibody response, 377
Tully, J. G. See Gaines, 293, 393
Typhoid fever, experimental infection in chimpanzees, 293, 393

Vaccinia, immune responses to experimental infection, 386
VanEseltine, W. P. See Phibbs; also see Wooley
Vibrio cholerae, fatty acids, 47
Vibrios, nonagglutinable, isolation from enteritis outbreak in Czechoslovakia, 25
Vick, J. A., R. E. Lincoln, F. Klein, B. G. Mahlandt, J. S. Walker and D. C. Fish. Neurological responses of the primate to anthrax toxin, 85; also see Klein; also see Remmele; also see Fish
Virus, tadpole edema, 253

Waaij, D. van der. The persistent absence of Enterobacteriaceae from the intestinal flora following antibiotic treatment, 32
Walker, J. S. See Vick; also see Klein; also see Remmele; also see Fish
Warren, J. See Goren
Werner, A. S. See Raff
Witebsky, E. See Bigazzi
Wolf, K., G. L. Bullock, C. E. Dunbar and M. C. Quinby. Tadpole edema virus: A viscerotropic pathogen for anuran amphibians, 253
Wolley, R. E. and W. P. VanEseltine. Nutritional requirements of leptospirae. IV. Vitamin requirements of *Leptospira pomona* and its growth in a minimal medium, 206
Walker, R. V. Comparative physiopathology of plague endotoxin in mice, guinea pigs and monkeys, 188

Zak, C. See Kwarecki
Ziegler, D. W. See Palmer

THE JOURNAL OF INFECTIOUS DISEASES

Founded in 1904 by The John Rockefeller McCormick Memorial
Institute for Infectious Diseases under the
Editorship of Ludvig Hektoen and Edwin O. Jordan

Edited by James W. Moulder

Advisory Editors: William Burrows, Sidney Cohen, G. M. Dack, Friedrich Deinhardt,
R. D. Ekstedt, J. C. Feeley, F. B. Gordon, Dorothy Hamre, S. A. Koser,
C. E. Lankford, R. M. Lewert, C. G. Loosli, K. F. Meyer,
A. F. Rasmussen, Jr., Bernard Roizman, E. H. Sadun,
O. K. Skinsnes, Helmuth Sprinz, W. H. Taliaferro,
D. W. Talmage, R. S. Weiser

Volume 118

1968

Published for the John Rockefeller McCormick Memorial Fund

Volume 118, February-December, 1968

TABLE OF CONTENTS

No. 1, February 1968 PAGE

G. Furness, Florence J. Pipes and M. J. McMurtrey, Susceptibility of human mycoplasmata to ultraviolet and X irradiations 1
G. Furness, Florence J. Pipes and M. J. McMurtrey. Analysis of the life cycle of *Mycoplasma pneumoniae* by synchronized division and by ultraviolet and X irradiations 7
Martin J. Raff and Anthony S. Werner. Staphyloccocal infection in chick embryos: The effect of hydrocortisone on intra-allantoic infection 14
Eva Aldová, Karla Lázničková, Eva Štěpánková and Jan Lietava. Isolation of nonagglutinable vibrios from an enteritis outbreak in Czechoslovakia 25
D. van der Waaij. The persistent absence of Enterobacteriaceae from the intestinal flora of mice following antibiotic treatment 32
Robert I. Krasner and Rosemary Heitmann. The presence of a virulence factor in group A streptococcal extracts. II. The enhancement of virulence of heterologous streptococci and other organisms by these extracts 39
Buford L. Brian and Earl W. Gardner. Fatty acids from *Vibrio cholera* lipids 47
David Gale, Elizabeth A. Lockhart and Ethel Kimbell. Studies of *Coccidicides immitis*. IV. The effect of previous injection with human red cell stromata of the ABO groups on infection of mice with *C. immitis* 54
S. Klasky and M. J. Pickett. Immunogenicity and specificity of *Listeria monocytogenes* cell walls 65
F. A. H. Rice. Leucocyte response to the injection of leucogenenol in rabbits and mice 76
James A. Vick, Ralph E. Lincoln, Frederick Klein, Bill G. Mahlandt, Jerry S. Walker and Donald C. Fish. Neurological and physiological responses of the primate to anthrax toxin 85
Frederick Klein, Ralph E. Lincoln, James P. Dobbs, Bill G. Mahlandt, Norman S. Remmele and Jerry S. Walker. Neurological and physiological responses of the primate to anthrax infection 97
Norman S. Remmele, Frederick Klein, James A. Vick, Jerry S. Walker, Bill G. Mahlandt and Ralph E. Lincoln. Anthrax toxin: Primary site of action 104
Donald C. Fish, Frederick Klein, Ralph E. Lincoln, Jerry S. Walker and James P. Dobbs. Pathophysiological changes in the rat associated with anthrax toxin 114

No. 2, April 1968

Ron Friedman and Ronald M. Maenza. Peroral infection and resistance to reinfection with encephalomyocarditis virus in the mouse 125
K. K. Sethi and H. S. Randhawa. Survival of *Cryptococcus neoformans* in the gastrointestinal tract of pigeons following ingestion of the organism 135
John W. Osebold and Ole Aalund. Interpretation of serum agglutinating antibodies to *Listeria monocytogenes* by immunoglobulin differentiation ... 139
Michael E. Miller and John I. Buckler. Intracellular survival and growth of *Serratia marcescens* following phagocytosis by human leukocytes 149

RICHARD W. EMMONS, DAVID H. GRIBBLE AND EDWIN H. LENNETTE. Natural fatal infection of an owl monkey (*Aotus trivirgatus*) with herpes T virus.. 153
GARY J. HALLER AND RAYMOND J. LYNN. Immune response of rabbits to streptococci grown in intraperitoneal diffusion chambers..... 160
PASQUALE F. BARTELL, THOMAS E. ORR AND MAGALY GARCIA. The lethal events in experimental *Pseudomonas aeruginosa* infection in mice..... 165
H. S. NIELSEN, JR. Biologic properties of skin test antigens of yeast form *Sporotrichum schenckii*..... 173
ANTONINA M. BREM AND WARREN C. EVELAND. L forms of *Listeria monocytogenes*. I. In vitro induction and propagation of L forms in all serotypes 181
RICHARD V. WALKER. Comparative physiopathology of plague endotoxin in mice, guinea pigs and monkeys..... 188
PAUL V. PHIBBS, JR. AND WILLIAM P. VANESELTINE. Nutritional requirements of leptospirae. III. Minimal nitrogen requirements of a strain of *Leptospira pomona*..... 197
RICHARD E. WOOLEY AND WILLIAM P. VANESELTINE. Nutritional requirements of leptospirae. IV. Vitamin requirements of *Leptospira pomnao* and its growth in a minimal medium..... 206
MAYER B. GOREN AND JUDITH WARREN. Immunofluorescence studies of reactions at the cryptococcal capsule..... 215
MARCUS M. JENSEN. Transitory impairment of interferon production in stressed mice..... 230

NO. 3, JUNE 1968

TOSHISADA SAWADA, KAZUTOSHI TAKEI, SHIGEFUSA SATO AND SAKAE MATSUYAMA. Studies on the immunodiagnosis of paragonimiasis. III. Intradermal skin tests with fractionated antigens..... 235
A. SZAKACS, J. G. SINKOVICS, J. J. BUTLER, B. M. LEVY AND C. F. TESSMER. Electron microscopic observations on the interaction of macrophages and lymphocytes in a virus-induced murine lymphoma..... 240
KEN WOLF, G. L. BULLOCK, C. E. DUNBAR AND M. C. QUIMBY. Tadpole edema virus: A viscerotropic pathogen for anuran amphibians..... 253
GEORGE F. GRADY, MORTON A. MADOFF, RAYMOND C. DUHAMEL, EDWARD W. MOORE AND THOMAS C. CHAMBERS. Sodium transport inhibition by cholera toxin: The role of non-ionic diffusion of ammonia..... 263
P. BHATTACHARYA AND S. MUKERJEE. Production of antibodies after live enteral cholera vaccination..... 271
WILLIAM H. TALIAFERRO AND LUCY GRAVES TALIAFERRO. The hemolytic immunoglobulins produced by unirradiated and irradiated rabbits immunized with Forssman antigen..... 278
F. A. H. RICE AND J. H. DARDEN. The effect of the intravenous injection of leucogenenol on the blood cells of the bone marrow..... 289
SIDNEY GAINES, HELMUTH SPRINZ, JOSEPH G. TULLY AND WILLIAM D. TIGERTT, Studies on infection and immunity in experimental typhoid fever. VII. The distribution of *Salmonella typhi* in chimpanzee tissue following oral challenge, and the relationship between the numbers of bacilli and morphologic lesions..... 293
RONALD D. HINSDILL AND DAVID T. BERMAN. Antigens of *Brucell abortus*. II. Toxicity for macrophages in culture..... 307
JAMES L. KLECK AND JOHN A. DONAHUE. Production of thermostable hemolysin by cultures of *Staphylococcus epidermidis*..... 317
E. E. ELKO AND WILLIAM CANTRELL. Phagocytosis and anemia in rats infected with *Haemobartonella muris*..... 324
